## OBJECTIVE

Enthusiastic Computer Science student specializing in AI & ML with a strong foundation in Python, DSA, and web development. Passionate about building impactful AI solutions using LLMs and GPT. Seeking an SDE internship to apply and enhance technical skills in a challenging, fast-paced environment like Amazon.

## PROJECTS

Advanced Resume Builder (HTML, CSS, JavaScript)

- Developed a responsive web app to create ATS-compliant resumes.
- Implemented modular UI, form validation, and live preview feature.
- Designed for OpenAI GPT API integration to auto-generate bullet points.
- GitHub Link: [Insert Link]

College Chatbot Prototype (Python, Flask, NLTK)

- Created an FAQ-based chatbot using NLP to automate student query handling.
- Built custom intents and trained the model on college data.
- Future roadmap includes GPT-based enhancement for conversational AI.
